Data Entry and Analysis using Ms-Excel

Annual Report 2023-24

The Department of Statistics conducted Value added courses in "Data Entry and Analysis using Ms-Excel" for the student of B.Sc. I in the year 2023-24. This course is run on self-funding basis and free of cost. The aim of this course is to provide basic tools and techniques in Ms-Excel entry and statistical analysis to the students. This course provide theoretical and practical knowledge of Ms-Excel in Statistics.

In the academic year 23 students are enrolled for this course. All 13 students have completed the course successfully. The department designed syllabus for this course and executed it in the second term. This course was conducted from 05/01/2024 to 18/01/2024. The course is introduced for the entry level. Classification and graphical representation are the topics not included in syllabus of B.Sc. I of Shivaji University but they are very much useful to understand the basic concepts in descriptive statistics.

Faculty in the department conducted extra lecture beside the regular schedule of the college. Based on the syllabus taught an examination was conducted to test the progress of the students. After completion of the course students are familiar with Ms-Excel software and they are able to use the software for basic concepts of Statistics such as diagrammatic representation, graphical representation, finding mean, variance, correlation coefficient etc. using Ms-Excel. Certificates are given to the students after successful completion of the course.
