KRANTISINH NANA PATIL COLLEGE, WALWA, DIST. SANGLI
Empirical Study Tour Year: 2023-2024
National Service Scheme and Department of History

Report

The process of teaching and learning should extend beyond the walls of the college campus. The younger generation must be aware of society and learn about that reality is expected in the modern era. To achieve this, our college organized an empirical study tour, which was arranged by the National Service Scheme (NSS) and the Department of History of our college.

The National Education Policy, implemented by the University Grants Commission, emphasizes the use of the empirical method in the teaching and learning process. The college is following the guidelines of this policy and has incorporated the empirical method as a key aspect of the study tour.

The study tour has several aims-

Firstly, it aims to create awareness about society and its various aspects. Students are exposed to the ground realities of the world beyond the campus, which helps them understand the importance of empathy, compassion, and social responsibility.

Secondly, the tour aims to teach the empirical method of study. Students are encouraged to observe, collect data, and scientifically analyse their findings. This helps them develop critical thinking skills, which are essential for their academic and personal growth.

Thirdly, the study tour aims to change the thinking method of study. The tour encourages students to question their assumptions, beliefs, and prejudices, and adopt a more nuanced approach to their studies. This helps them become more open-minded, tolerant, and accepting individuals.

Fourthly, the study tour aims to remove differences between male and female students and promote gender equality. The tour emphasizes the importance of treating everyone with respect and dignity, irrespective of their gender.

Fifthly, the study tour aims to teach students about the local history. Students are taken to various historical sites and monuments, which helps them understand the rich cultural heritage of the place.

Sixthly, the study tour aims to create awareness about heritage and its preservation. Students are taught about the importance of conserving heritage sites and the role they can play in this regard. Seventhly, the study tour aims to foster national unity. Students are exposed to the diversity of our nation and the importance of unity in diversity.

Lastly, the study tour aims to promote cleanliness at heritage sites. Students are encouraged to maintain cleanliness and hygiene during their visits, which helps them develop a sense of responsibility towards the environment and the community.

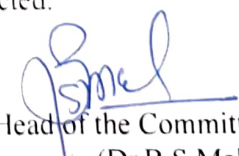

Every year, the NSS and the Department of History of our college organize a special tour for cleaning and raising awareness about all aspects beyond the campus. In the academic year of 2023-24, a special tour was arranged at Radhanagari Dam.

On the 20th of December 2023, the tour was arranged. Dr. B.S.Mali, head of the History department informed us about the greatness and egalitarian view of the Rajarshi Shahu Maharaj, who built the water resources for future generations. Still, the Kolhapur district which was previously part of Kolhapur Princely State used this water for agriculture, industries and day-to-day life. After his speech students asked the queries which were solved by him.

After that NSS students participated the cleanliness activities near the dam area under the guidance of NSS Program Officer Dr. J P Kamble.

The above empirical tour has achieved the aims which were expected.
